

## Government Testimonials

We would like to present the following projects to demonstrate our very good capability to deliver products on time and within the allocated budget.

1. Project: BRAND NAME Leica BLK2G0 and associated Software

Notice ID: 69056723Q000041. Order No. 69056723P000040. Contact: Douglas G Taylor (FHWA), douglas.g.taylor@dot.gov, Phone Number: 360-619-7738. Completed.

This contract was awarded on August 2, 2023, with an extremely short delivery period of 30 days. In spite of made to order product shipped from Switzerland to our facility and then reshipping to Vancouver, WA 98661-3801, we were able to arrange for an expedited delivery of the product on August 24, 2025. We kept the receiving team fully informed during the entire performance period. In a phone call discussion with Mr. Taylor specifically thanked us for this accelerated delivery as this saved the Department of Transportation from renting temporary equipment and this saved them this rental cost.

As can be seen from the attached CPARS, we got a Very Good Rating for Schedule and Management. Please see below pictures from the CPARS and complimentary Email from Mr. Taylor.

Good morning Gautam,

Thank you so much! You have been very responsive with this order and, although not required, I see no reason we wouldn't be able to submit a CPARS eval. I would like to ask that you wait until you receive the delivery confirmation from FedEx before submitting your invoice through the Delphi portal. This will allow us sufficient time to process the receipt and approve the invoice in a timely fashion.

Thank you again!

This is a renewable software license contract with a minimum five-year term, with the current period of performance from 08/02/2023 to 08/13/2026; we have successfully secured renewals in August 2024 and August 2025 and are currently in discussions for the 2026–2027 renewal.

## 2. Project: SHEETS, RUBBER

Notice ID: N4523A25Q4004, Order No: N4523A25P4010. Primary Contact: Andrew Smith, andrew.r.smith6@navy.mil, Secondary Contact: Brian Fergus, brian.fergus@navy.mil. Completed.

As the Government took an extra long time to award the contract, our bid had expired, and when informed of being selected, we still honored our expired bid without any cost or schedule impact.

Once we were awarded, the Navy requested delivery as soon as possible and we closely worked with the manufacturer to not only accelerate the delivery ahead of the promised schedule but also kept the Navy team fully informed of our progress. The Navy representative was “amazed” at our performance as demonstrated by the below email:
